

Kajal Sharma

Data Science Undergraduate | Full Stack Enthusiast

kajaldixit2105@gmail.com | 8290116181 | Ram Nagariya Road | LinkedIn | GitHub

SUMMARY

Highly motivated Computer Science student specializing in Machine Learning and Full Stack Development, with proven experience in developing predictive models and scalable web applications. Strong expertise in data analysis, backend systems, and modern web technologies, with a focus on building impactful, real-world solutions.

PROFESSIONAL EXPERIENCE

Core Member

E-cell "Topaz"

- Actively contributed to organizing technical and entrepreneurial events, workshops, and competition

2025 – Present

Skit Jaipur

Kistechno Software

Web Development Intern,

- Worked on frontend and basic backend development
- Built and tested web components

07/2025

Skit Jaipur

SKILLS

Programming:

Python, JavaScript

Libraries:

NumPy, Pandas, Scikit-learn

Web Development:

HTML, CSS, Node.js, MongoDB
(MERN Stack)

Tools:

Git, GitHub, VS Code

ML & Data Science:

Supervised Learning, Model
Evaluation

CERTIFICATES

- CodeRed Appathon – IIT Delhi (2026)
- Data Analytics Workshop (Tableau) - 2026
- Event Coordinator – ICI Fest, SKIT Jaipur (2025)
- LNMI Hacks 8.0 – LNMIIT (2026)
- Smart India Hackathon (SIH) – 2025
- NPTEL - C Programming (2025)
- Knock the Gate & IEEE Summit – Pravah 2026
- Udbhav Tech Event – PIET Jaipur (2025)

EDUCATION

Swami Keshvanand Institute of Technology (SKIT), Jaipur

B.Tech in Computer Science

- Current CGPA - 9.51

2024 – Present

Jaipur

Saraswati Modern Public School, Bansur, Alwar

Class XII (CBSE)

- Percentage - 90

2022 – 2023

Alwar

PROJECTS

Student Performance Analyzer

- Developed ML models to predict student performance using structured datasets
- Performed data preprocessing, feature engineering, and model evaluation

2026

Fake Product Verification System (Blockchain + Monad)

- Developed a blockchain-based system for product authentication
- Implemented secure verification logic to prevent counterfeit products

2026

Weather Forecasting App (API Integration)

- Built a web app to fetch and display real-time weather data using APIs
- Focused on clean UI and efficient data handling

2025

Digital Library Management System

- Designed and developed a Library Management System using **PHP and SQL** to manage books, users, and transactions

2025
